Airbus Helicopters (previously Eurocopter France) Model EC120B helicopters, to require amending the rotorcraft flight manual supplement, pre-flight checking the emergency flotation gear before each flight over water, and replacing the float arm pushbutton Docket RIN 2120-AA64 Supporting/Related Materials: U.S. DOT/FAA - Disposition of Comments Form

### **Turbine transition training**

I am looking at options for turbine transition training post-R44, ideally in an EC120B. It seems like the vast majority of flight schools in California don't run turbines at all, and the few that do are mostly R66 operators. I have found two options in my state (California), one of them is mostly a tour operator that does not focus on training.
